

SR-3050

The SR-3050 can produce up to a 3" thick slab. Its *TWO-ROLLER* system evenly distributes pressure on the slab to reduce warping. The dual hand-wheels and thickness indicator provide synchronized fine adjustment and allow for precise control of the slab thickness. The SR-3050 includes a wagon wheel handle that provides effortless feeding of slab through rollers in either direction. It features a large 30" x 50" table for plenty of workspace and comes with one canvas set to complete the package.

Features

- › Two-roller system evenly distributes pressure on slab to reduce warping
- › Dual hand-wheels provide synchronized fine adjustment that allow for precise control of slab thickness with the turn of one handle
- › Thickness indicator allow for precise control of slab thickness
- › Handle type: Wagon wheel or crank handle creates effortless feeding in either direction
- › Frame material constructed of heavy gauge steel

Thickness Indicator
